

JAYENDRA BAMNE

Software Developer

Indore, MP — +91 6267958293 — jayendrabamne68@gmail.com — Portfolio — GitHub — LinkedIn

PROFESSIONAL SUMMARY

Results-driven **Full-Stack Developer** and Computer Science graduate with hands-on experience building **AI-powered web applications** and scalable **RESTful APIs** using **Node.js** and **Express.js**. Demonstrated ability to architect end-to-end solutions across **React.js** frontends, **MongoDB/MySQL** databases, and **AWS (EC2, S3)** cloud infrastructure. Committed to **Clean Code** principles, **Agile Collaboration**, and delivering high-impact software with an **Ownership Mindset**.

TECHNICAL & PROFESSIONAL COMPETENCIES

Languages:	Python, JavaScript (ES6+), HTML5, CSS3
Frontend:	React.js, Responsive Web Design, REST API Integration
Backend & Core:	Node.js, Express.js, RESTful APIs, MVC Architecture, Middleware Design
Cloud & DevOps:	AWS (EC2, S3), Vercel, Render, Git/GitHub, Postman
Databases:	MongoDB, MySQL, Mongoose ODM
CS Fundamentals:	Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS
Soft Skills:	Analytical Problem-Solving, Cross-functional Collaboration, Adaptability,

PROFESSIONAL EXPERIENCE

Full-Stack Developer Intern	Jan 2025 – Feb 2026
Debugshaala	Indore, MP

- **Full-Stack Architecture:** Architected and delivered end-to-end web applications leveraging **React.js**, **Node.js**, **Express.js**, and **MongoDB**, supporting real-world user workflows across frontend and backend layers.
- **API Development & Integration:** Designed and implemented scalable **RESTful APIs** with optimized request handling, improving system efficiency and reducing average API response time by **30%**.
- **Testing & Code Quality:** Established unit and functional testing frameworks to enforce code reliability and maintainability, achieving measurable improvements in defect detection across core application modules.
- **Cloud Deployment & Infrastructure:** Engineered end-to-end deployment pipelines using **Vercel** (frontend), **Render** (backend), and **MongoDB Atlas** cloud database, ensuring high availability and production-grade scalability.

KEY TECHNICAL PROJECTS

Nyanantar-Legal AI Platform — Professional Project @ DebugShala	React.js, Node.js, Rest API, MongoDB
---	--------------------------------------

- Engineered scalable **RESTful backend APIs** for India's first **Legal AI Agent**, enabling real-time statute and case law retrieval across **72+ legal documents** and **4,800+ indexed pages** with support for **3 languages** (English, Hindi, Hinglish).
- Architected secure backend infrastructure integrating **third-party AI APIs** for intelligent legal query processing, ensuring **low-latency responses** and production-grade availability for real-world legal research workflows.

AI Health Consultancy Platform — GitHub — Live Demo	React.js, Node.js, Express.js, MongoDB, AI APIs
---	---

- Architected a production-grade, full-stack AI healthcare consultation platform using **React.js**, **Node.js**, and **Express.js**, enabling real-time **AI-driven symptom analysis** and delivering personalized health insights to **100+ active users**.
- Engineered seamless **third-party AI API** integration with optimized request handling and response parsing pipelines, achieving **40% improvement** in recommendation accuracy and **sub-200ms** average API response time.
- Implemented **JWT-based authentication** and **Role-Based Access Control (RBAC)**, securing sensitive health data for **500+** concurrent sessions and ensuring compliance with data privacy best practices.
- Deployed end-to-end application via **Vercel** (frontend) and **Render** (backend) with **MongoDB Atlas** cloud database, achieving **99.9% uptime** and production-grade scalability.

FinVault – Digital Banking Platform — GitHub — Live Demo	React.js, Node.js, Express.js, MongoDB, REST APIs
--	---

- Architected a production-grade, full-stack **digital banking platform** using the **MERN stack**, enabling secure **user account management**, real-time **balance tracking**, and complete **transaction history** for **200+ users**.
- Implemented enterprise-grade authentication using **JWT** and **bcrypt password hashing**, securing **100%** of user sessions and API endpoints against unauthorized access.
- Engineered scalable **RESTful APIs** for core banking operations including account creation, balance updates, and transaction processing, reducing average client-server response time by **35%**.
- Deployed end-to-end application via **Vercel** (frontend) and **Render** (backend) with **MongoDB Atlas** cloud database, achieving **99.9% uptime** and production-grade scalability.

EDUCATION

Bachelor of Technology – Computer Science and Engineering	2022 – 2026
IPS Academy, Institute of Engineering and Science, Indore	CGPA: 8.52

ACHIEVEMENTS & CERTIFICATIONS

- **Generative AI Professional – Oracle:**
- **AI & Machine Learning – AWS Academy:**
- **Programming with JavaScript – Coursera:**
- **Python Programming Professional – Coursera:**
- **Technical Leadership:** Led a team of **4 Members** in full-stack project development
